

Welcome to Canandaigua Medical Group

In order for us to best serve you, here are a few things you need to know.

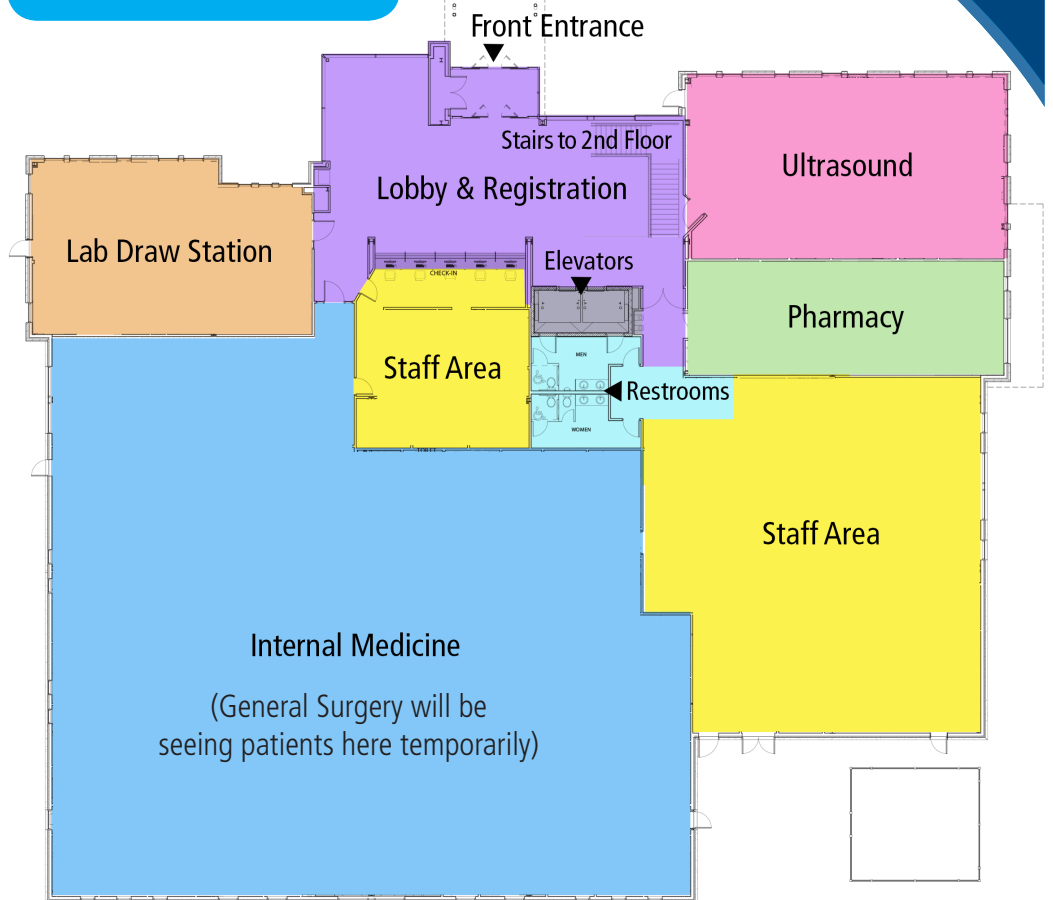

1. Please note that for Internal Medicine, Pediatrics and OB/GYN, you will need to stop at the main registration desk in the lobby before your appointment. (If you are visiting the Lab Draw Station or Pharmacy, you may proceed directly back to those areas.)
2. When you have finished registering, please proceed to your respective department and let them know at check-in that you have arrived.
3. Once your appointment is complete, please check out at the desk in your respective department prior to leaving.

Thank you!
