Level Term to 65 Rider
This rider is available to associates and spouses from age 18 to age 55. This rider will add 100% of the amount of your Whole Life policy as a Term policy. The Whole Life policy is permanent insurance, the Level Term Rider will discontinue upon attainment of age 65.

Cash Value Accumulation & Cash Value Loans
Whole Life insurance builds guaranteed cash values as long as the premium is paid. Once cash value accumulates, you can borrow from the cash value of your policy however interest is payable in advance. The death benefit will be reduced by any outstanding loan and unpaid accrued interest.

Waiver of Premium
Your Whole Life insurance policy will include Waiver of Premium for all policies issued on associates age 15 through age 55. Should the associate become disabled prior to age 60, his/her premiums will be waived after four months of continuous disability and for the duration of the disability.

Children’s Term Insurance Rider
You may add a Children’s Term Rider to either the associate or spouse’s application for coverage. The rider provides coverage for all children from $2,000 to $10,000. At age 25, the rider can be converted to an individual whole life policy and can be increased to a maximum of 5 times the coverage amount without evidence of insurability.

Policy Effective Date
Temporary insurance coverage is provided to all associates who are eligible for qualified issue beginning on the date the application is signed. This temporary coverage continues until the policy is issued or declined. Enhanced Cancer Care Insurance AFLAC

This coverage provides financial relief from the devastating affect cancer can have on a family. Your medical plan will cover most cancer related medical expenses, but cancer has many non-medical and out-of-pocket expenses. Non-medical expenses include travel; food, lodging and household help costs. In addition, loss of earning power by either the cancer victim or a caretaker can have a significant impact on your ability to meet everyday expenses like: health insurance premiums, mortgage or rent payments, car payments, utility bills and groceries.

This coverage is portable; you can keep the plan in-force after you leave Thompson Health.

Flexible Spending Account (FSA) - Lifetime Benefit Solutions

You can establish a Spending Account to help you use pre-tax dollars to pay for certain uninsured health care expenses and work-related dependent care expenses. These are individual accounts, not group insurance plans. They are funded with associate contributions on a payroll deduction basis. The health expense portion of the plan can only be funded if you are not covered under a High Deductible Health plan. (Certain rules may apply for Medicare, Tricare, Veteran Benefits, and/or dependent status as indicated on a tax return (non-spouse)).

Normally, you must pay for miscellaneous un-reimbursed health and childcare expenses after taxes have been deducted from your pay. By using an FSA, you can pay for many of these expenses on a pre-tax basis. By allocating a portion of your pay to an FSA, you reduce the amount of income tax you are required to pay.

By paying for certain eligible expenses with "tax-free" dollars instead of taxable dollars, the associate in this example increased his spendable income by $1,280.88 over a 12-month period. That's like receiving a 9% raise. Whether you contribute towards your health insurance, have childcare expenses, or predictable out-of-pocket medical expenses, our Flexible Benefits Plan can give you more real spendable income each pay period.

For instance, if you earn $20,000 and decide to contribute $2,000 to your FSA, your gross income, as reported on your W-2 form, will be $18,000. That would save you approximately $552 in taxes. Not only will you pay less tax on your income, you will have money set aside to pay for eligible health and child/dependent care expenses.

2020 Maximums:

- $2,750 Per Calendar Year for qualified health expenses
- $5,000 Per Calendar Year for qualified dependent-care expenses

- All expenses must be incurred in the same calendar year as the elected benefit amount.
- All eligible receipts must be submitted no later than 4/30 of the following year to receive available fund balances.
- **NOTE:** You are **not able to enroll in the health expense portion of the FSA if you are enrolled in a HDHP, or a Thompson Health High Deductible Health Plan with Health Savings Account.**
- Certain rules may apply for Medicare, Tricare, Veteran Benefits, and/or dependent status as indicated on a tax return (non-spouse).
You can establish a Health Savings Account to help you use pre-tax dollars to pay for qualified expenses under IRS Section 125. These are individual accounts, not group insurance plans. If you participate in a Thompson Health High Deductible Health Plan, in most instances an account will automatically be set up for contributions. The account can be funded both with associate and discretionary Thompson Health contributions on a payroll deduction basis.

Normally, you must pay for miscellaneous un-reimbursed health expenses after taxes have been deducted from your pay. By using an HSA, you can pay for many of these expenses on a pre-tax basis. By allocating a portion of your pay to an HSA, you reduce the amount of income tax you are required to pay.

2020 Maximums (including the Thompson Health contribution):
Thompson Health will contribute $19.23/pay period ($500 annual) to a single plan, and $38.46/pay period ($1,000 annual) to a family plan (2+)

- All expenses must be incurred after the account is established. Funds are allowed to be carried over year to year.
- NOTE: You are not able to enroll in the health expense portion of the FSA if you are enrolled in the High Deductible Health Plan with Health Savings Account. Some exceptions apply.
