## **Enhanced Cancer Care Insurance AFLAC**

This coverage provides financial relief from the devastating affect cancer can have on a family. Your medical plan will cover most cancer related medical expenses, but cancer has many non-medical and out-of-pocket expenses. Non-medical expenses include travel; food, lodging and household help costs. In addition, loss of earning power by either the cancer victim or a caretaker can have a significant impact on your ability to meet everyday expenses like: health insurance premiums, mortgage or rent payments, car payments, utility bills and groceries.

This coverage is portable; you can keep the plan in-force after you leave Thompson Health.

## Flexible Spending Account (FSA)- Lifetime Benefit Solutions

You can establish a Spending Account to help you use pre-tax dollars to pay for certain uninsured health care expenses and work-related dependent care expenses. These are individual accounts, not group insurance plans. They are funded with associate contributions on a payroll deduction basis. The health expense portion of the plan can only be funded if you are not covered under a High Deductible Health plan. (certain rules may apply for Medicare, Tricare, Veteran Benefits, and/or dependent status as indicated on a tax return (non-spouse)).

Normally, you must pay for miscellaneous un-reimbursed health and childcare expenses after taxes have been deducted from your pay. By using an FSA, you can pay for many of these expenses on a pre-tax basis. By allocating a portion of your pay to an FSA, you reduce the amount of income tax you are required to pay.

Tax-Advantages of a FSA

Refer to: https://ebremployer.lh1ondemand.com/login for more information on this program.

By paying for certain eligible expenses with "tax-free" dollars instead of taxable dollars, the associate in this example increased his spendable income by \$1,280.88 over a 12-month period. That's like receiving a 9% raise. Whether you contribute towards your health insurance, have childcare expenses, or predictable out-of-pocket medical expenses, our Flexible Benefits Plan can give you more real spendable income each pay period.

For instance, if you earn \$20,000 and decide to contribute \$2,000 to your FSA, your gross income, as reported on your W-2 form, will be \$18,000. That would save you approximately \$552 in taxes. Not only will you pay less tax on your income, you will have money set aside to pay for eligible health and child/dependent care expenses.

## 2022 Maximums:

\$2,850 Per Calendar Year for qualified health expenses \$5,000 Per Calendar Year for qualified dependent-care expenses

- □ All expenses must be incurred in the same calendar year as the elected benefit amount.
- □ All eligible receipts must be submitted no later than 4/30 of the following year to receive available fund balances.
- NOTE: You are not able to enroll in the health expense portion of the FSA if you are enrolled in a HDHP, or a Thompson Health High Deductible Health Plan with Health Savings Account.
- Certain rules may apply for Medicare, Tricare, Veteran Benefits, and/or dependent status as indicated on a tax return (non-spouse).

## Health Savings Account (HSA)- HSA Bank

You can establish a Health Savings Account to help you use pre-tax dollars to pay for qualified expenses under IRS Section 125. These are individual accounts, not group insurance plans. **If you participate in a Thompson Health High Deductible Health Plan,** <u>in most instances</u> **an account will automatically be set up for contributions.** The account can be funded both with associate and discretionary Thompson Health contributions on a payroll deduction basis.

Normally, you must pay for miscellaneous un-reimbursed health expenses after taxes have been deducted from your pay. By using an HSA, you can pay for many of these expenses on a pre-tax basis. By allocating a portion of your pay to an HSA, you reduce the amount of income tax you are required to pay.

2022 Maximums (including the Thompson Health contribution):

Thompson Health will contribute \$19.23/pay period (\$500 annual) to a single plan, and \$38.46/pay period (\$1,000 annual) to a family plan (2+)

- □ All expenses must be incurred after the account is established. Funds are allowed to be carried over year to year.
- □ NOTE: You are not able to enroll in the health expense portion of the FSA if you are enrolled in the High Deductible Health Plan with Health Savings Account. <u>Some exceptions apply.</u>

#### Your Maximum Annual Contributions:

Single:	\$3,150 PLUS TH contribution \$19.23/pp
Family (2+	) \$6,300 PLUS TH contribution \$38.46/pp

Associates ages 55+ in the calendar year can contribute +\$1,000 additionally.
